

RFP Analysis Report

AI-Generated Executive Analysis

Generated: June 04, 2026

Executive Summary

Main Topic

The main topic of this document is the implementation of an AI-powered Document Intelligence Agent for automating the analysis of Request for Proposal (RFP) documents.

Objectives

- Automate the RFP analysis process to reduce manual effort by 60-70%
- Improve accuracy and consistency in extracting key information from RFP documents
- Enhance compliance checking and contract review processes

Important Points

- The current manual process is time-consuming, taking 1-3 hours per RFP document
- The proposed solution uses a Claude-powered Document Intelligence Agent to extract key fields, flag compliance requirements, and generate a structured summary report
- The agent will handle 100+ page documents, dense legal and procurement language, and varied RFP formats

Key Requirements

- AI backbone: Claude or similar LLM API
- Document ingestion: PDF parser and text chunking
- Prompt layer: custom structured prompts for domain-specific extraction logic
- Output layer: structured JSON to formatted report
- Compliance engine: checklist matching logic

Deliverables

- A working Document Intelligence Agent that can:
 - + Extract key fields from RFP documents
 - + Flag compliance requirements
 - + Generate a structured summary report
 - + Provide a bid/no-bid recommendation flag
- A user interface for uploading RFP documents and receiving reports
- A configurable internal compliance checklist
- Integration with OCR for scanned PDFs (in Phase 5)

Scope of Work

- RFP analysis (Confidence: 50%)
- compliance checking (Confidence: 50%)
- contract review (Confidence: 50%)
- document ingestion (Confidence: 50%)
- extraction of fields (Confidence: 50%)
- Document handling (Confidence: 50%)
- AI model implementation (Confidence: 60%)
- Data processing (Confidence: 50%)
- Add OCR (Confidence: 50%)
- Integrate with Knowledge Base (Confidence: 60%)
- Expand contract review (Confidence: 60%)

Deliverables

- structured summary
- compliance report
- structured summary report
- compliance checklist
- executive summary
- Standardised report
- RFP overview
- Scope of work
- Full production tool
- RFP analysis output

Objectives

- reduce manual effort
- improve accuracy
- increase consistency
- improve efficiency
- enhance accuracy
- reduce processing time
- Improve RFP processing

- Enhance data accuracy
- Increase compliance
- Reduce hallucination risk
- Provide usable PoC tool
- Save time
- Enhance compliance
